Mission

The mission of Christian Brothers Academy is to develop intellectually mature and morally responsible leaders. Drawing from the ethos of the founder of the Christian Brothers and the patron saint of teachers, St. John Baptiste de La Salle, Christian Brothers Academy not only imparts knowledge but transforms adolescent boys into Christian gentlemen of strong moral character who are aware of the larger world and ready to serve society. Excellent academics and diverse extracurricular programs are invaluable parts of this mission, but it is the totality of education, the development of the whole person - spirit, mind, and body - that Christian Brothers Academy is uniquely suited to provide.

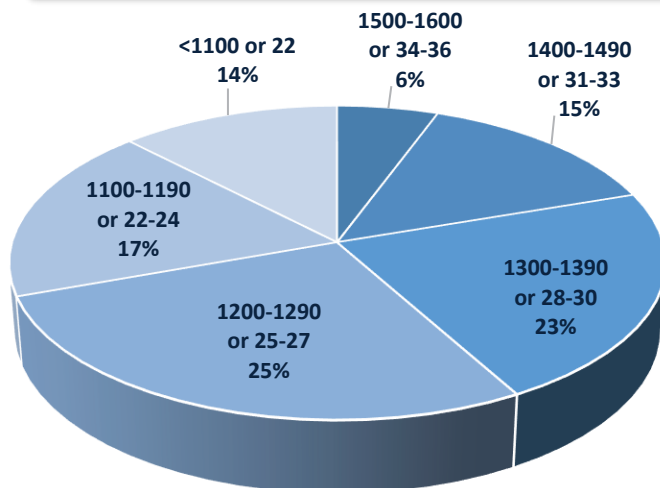

COVID-19 and the Academic Program

The past three years have presented uncharted territory for students, faculty and staff at CBA and around the world. Throughout this period, CBA took extraordinary measures to ensure that the academic standards of our school were maintained. Students earned numerical grades for all work as well as final class averages in each subject.

Special Programs

-  The **Brother Michael Dwyer, FSC Scholars Program** is comprised of a cohort of students in their junior and senior years who participate in focused research in a selected area of study.
-  The CBA **Christian Service Program** requires each student to complete minimum of 50 hours of service to those in need over their 4 years of high school. On average, CBA students complete 107 hours of service each by the time they graduate. Students particularly committed to service have an opportunity to enroll in a **Christian Service Class** during their senior year. Seniors chosen for this program commit to performing consistent weekly volunteer service at a site of their choosing.
-  The seniors in the **Peer Ministry Program** serve as "GURU's" or big brothers to members of the freshman class. The GURU's lead weekly meetings with small groups of freshmen to help foster their personal, spiritual, academic, and social growth.
-  The **Manhattan College Dual Enrollment** program affords students the opportunity to earn Manhattan College credits by taking Manhattan College-approved courses in the CBA curriculum. CBA students take these classes at CBA, and they are taught by CBA teachers who have been vetted and approved by department chairs at Manhattan College.
